

● We put people first

## We have great news: GLS Store, the first e-commerce platform designed by GLS!

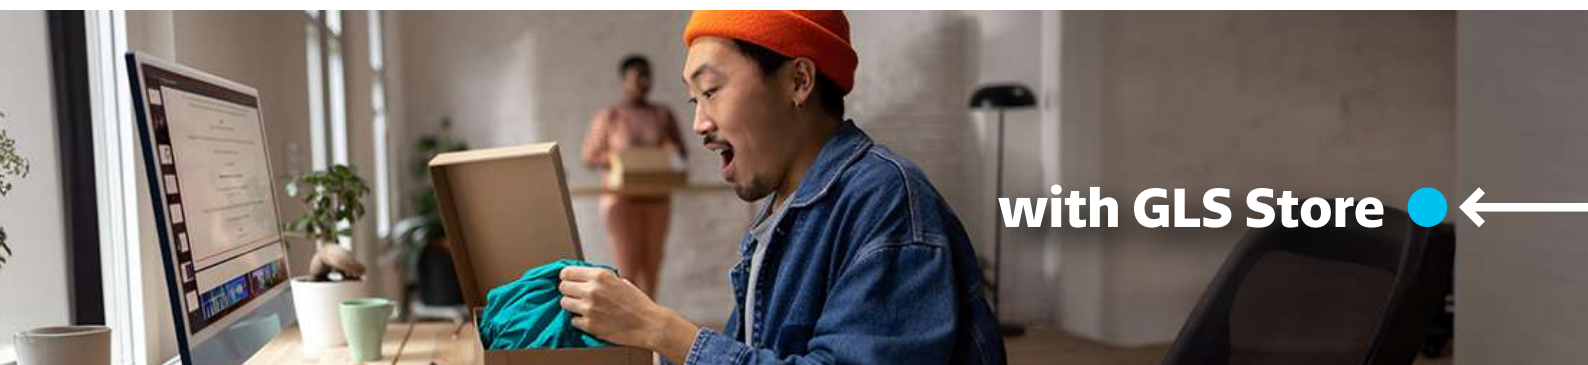

The GLS world is always growing, and we have reached a very important milestone: GLS Store, the platform completely dedicated to shipping from people to people, has been released!

We at GLS know how crucial it is that everyone who needs to ship, and among them private customers, have a great experience with our service. That is why we created our eCommerce site, a tool aimed at making every person we reach feel part of the greater GLS community.

Thus, the portal was developed from the understanding that it is not enough to expand and capillarize our Network to stay close to you, but we also need innovative tools capable of shortening the distance between us.

For this reason, once again, we have invested efforts and resources on innovation and in particular on digital, the mainstay of GLS's present and future projects.
